

QUARRY TILE CLEANER

LIQUID ANTI-SLIP FLOOR CLEANER

DESCRIPTION:

For general cleaning of floors, walls and equipment surfaces. Excellent for use as a quarry tile cleaner.

QUARRY TILE CLEANER deep cleans by penetrating into pores and cracks to lift and emulsify greasy soils. Helps eliminate slippage problems by increasing floor friction. Recommended for quarry tile, ceramic tile and brick floors.

A solution of 4 oz. of QUARRY TILE CLEANER to a gallon of water will clean approximately 200 square feet.

QUARRY TILE CLEANER works great on walkways, patios, courtyards and kitchens. It works great in removing soap film, body oils, urinary salts and hard water deposits from vertical surfaces because it self-foams.

COLOR: Green Liquid

DESCRIPTION (cont):

QUARRY TILE CLEANER is formulated with organic acids, degreasers and specialty surfactants that penetrate and dissolve light oil and scale from cement, rubber, vinyl, quarry and ceramic tile. With regular use it also makes your quarry tile and concrete floors more slip resistant. It is excellent for removing hard water scale from most bathroom and shower surfaces including shower stalls, partitions, grout, fiberglass, chrome, plastic composition and especially ceramic tile. Use in schools, hospitals, hotels and industrial facilities.

DIRECTIONS:

Wear rubber gloves and chemical goggles when handling this product. Do not mix with chlorine bleach. Do not use on aluminum, soft metal surfaces, wood or on highly polished marble floors.

For daily maintenance, mix 4 oz. of concentrate per gallon of water. Apply product evenly over entire surface to be cleaned and allow to stand 5 minutes. Scrub floor aggressively with a deck brush, paying particular attention to grout lines. Rinse with fresh water and squeegee dry.

For initial treatment of heavily soiled floors, wet floor with water, then pour undiluted concentrate directly on floor and spread evenly with a deck brush. Allow to stand for 10 minutes then aggressively brush floor. Rinse with fresh water and squeegee dry.

FLOOR CLEANING: Using a clean mop, apply to floor. Rinse mop, wring out and pick up excess solution. Repeat if necessary.

HARD SURFACE CLEANING: Apply product directly to soiled surface, using a spray bottle. Wipe surface down with a clean cloth or sponge. Rinse cloth or sponge in water, wring out and pick up excess solution. Repeat if necessary.

PRODUCT FEATURES / CUSTOMER BENEFITS

- Concentrated / Economical use costs
- Phosphate-free / Biodegradable
- Non-foaming
