

BUILDER BREAK

COMMERCIAL, HEAVY DUTY, POWDER CAUSTIC LAUNDRY BOOSTER

DESCRIPTION:

BUILDER BREAK contains sodium hydroxide, surfactants, builders, water conditioners, optical brighteners and anti redeposition agents that produce superior results in commercial laundry operations.

COLOR: White Powder

It's highly concentrated. You need only 4 oz. per 100 pounds of dry laundry (medium soil load). It rapidly penetrates, breaks down and flushes away food residues, grease, fats, oils, lipstick, protein, coffee, tea and other stains. It also prevents soil redeposition and helps tie up water hardness that causes fabric to dull or gray. BUILDER BREAK removes tough, set in stains that other commercial detergent leave behind. It's biodegradable, too. It also works as a booster and builder for regular powdered and liquid laundry detergents.

BUILDER BREAK works in hard or soft water. It's completely soluble, fast rinsing and leaves no buildup on fabrics and produces consistent results every time.

DIRECTIONS:

Concentrations will vary according to water hardness, soil load, water temperature, time and machine efficiency.

When using chlorine or color safe (oxygen) bleach, add to wash solution 3 to 5 minutes after the wash cycle begins.

Recommended for commercial and industrial use only. Not for use in home laundry machines. Never apply BUILDER BREAK directly to fabric. Dispense BUILDER BREAK after fill water has entered the machine.

COMMERCIAL LAUNDRY MACHINES:

HEAVY SOILS: 10 oz. (1 - 1/4 cup) per 100 pounds of dry laundry.

MEDIUM SOIL: 8 oz (1 cup) per 100 pounds of dry laundry.

LIGHT SOIL: 6 oz (3/4 cup) per 100 pounds of dry laundry.

Pre-sort laundry prior to wash. Pre-soak and pre-spot laundry when necessary. Place proper amount of laundry into laundry machine. When bleaching, use recommended laundry bleach at the proper use dilution. When souring and/or softening, use recommended sour and/or softener at the proper use dilution.

PRODUCT FEATURES / CUSTOMER BENEFITS

- Concentrated / Economical use costs
- Non-foaming / Maintains maximum pump efficiency for best cleaning results.
- Caustic detergent / See MSDS for instructions
