

ENZYME LAUNDRY DETERGENT

CONCENTRATED LIQUID FORMULA

DESCRIPTION

ENZYME LAUNDRY DETERGENT is formulated with the latest technology in surfactants and enzymes for maximum cleaning efficiency under all water conditions. Works equally well in hot or cold water.

COLOR: Amber Liquid

DIRECTIONS

This product is automatically dispensed. Use concentration will vary with size of machine, water conditions, soil load and linen type. The proper dispensing rate will be set by your laundry specialist.

LIGHT SOILS: 8 to 10 minute wash cycles

MEDIUM SOILS: 10 to 15 minute wash cycles

HEAVY SOILS: 12 to 18 minute wash cycles

TEMPATURE: Ranges should be between 70°F to 140°F maximum. Hot water can destroy the enzyme activity.

ENZYME LAUNDRY DETERGENT can be used as a pre-wash or pre-soak, when soaking linen containing fatty soils such as frying oils, butter, salad oils and other cooking oils.

Use 8 to 12 oz of detergent per 10 gallons of warm water 90° F to 130° F.

Let soak for a minimum of 2 hours or soak overnight.

PRODUCT FEATURES / CUSTOMER BENEFITS

- Concentrated / Economical use costs
- Neutral pH / Extends fabric life
- Enzyme activated / Effective stain removal
- Phosphate-free, readily biodegradable / Environmentally responsible
