

CONCRETE CLEANER

DESCRIPTION

CONCRETE CLEANER is a free flowing, granular silicate compound that dissolves easily in hot or cold water. It's special emulsifying ingredients increase the efficiency for removing mineral oil and heavy greases from any hard surface. It is ideal for warehouses, garages, food processing areas and restaurants.

DIRECTIONS

Remove any gum, labels or other stuck on soils with a scraper.
Dust mop or sweep the floor to remove all loose dirt and trash.

OPTION 1 - Mix CONCRETE CLEANER in a bucket, sprayer or auto scrubber as follows: Use hot water if the floor is extra dirty.

LIGHT: 1-2 oz. per gallon of water.
MEDIUM: 3-4 oz. per gallon of water.
HEAVY: 4-8 oz. per gallon of water.

Wet floor, scrub with brush and rinse.

OPTION 2 - Flush concrete with warm water.
Sprinkle CONCRETE CLEANER uniformly per 100 square feet, allowing it to soak on the surface from five to ten minutes. Scrub with brush and rinse.

PRODUCT FEATURES / CUSTOMER BENEFITS

- Highly concentrated / Economical use costs
- Industrial strength / Works quickly and thoroughly
- Non- caustic formula / Safer for employees

No.	Size	Qty./Unit
• 1181	20 Lbs.	1/Pail
• 1181	50 Lbs.	1/Pail
