

DRI-RITE

DRYING AGENT ADDITIVE

DESCRIPTION

DRI-RITE is a superior quality rinse additive for use in high temperature dishmachines, 180°F final rinse temperature. DRI-RITE lowers surface tension to speed drying while eliminating unwanted spotting or streaking.

DIRECTIONS

This product is automatically dispensed into the dishmachine through a rinse injector. A representative from your chemical department will establish the proper dilution rate depending on machine type and water conditions.

PRODUCT FEATURES / CUSTOMER BENEFITS

- Highly concentrated / Economical use costs
- Non-foaming / Spot-free drying
- Unique blend of wetting agents / Glassware and utensils dry to a sparkling shine
- Phosphate-free / Environmentally responsible
- Color coded five gallon container lids / Simplifies installation, minimizes chance for misuse
