Value Products Inc.

Chemical Compounding & Packaging

With over 50 years of experience as a chemical compounder manufacturing industrial detergents for the warewash, laundry and industrial markets, Value Products Inc., has established itself as an industry leader. Dishmachine encapsulated powder detergents, solid pot and pan detergents, solid silver pre-soak detergents and eco-friendly concentrates are just a few of Value Products' innovations.

"We continually strive to provide our customers with exceptional quality products and intuitive customer service."

Typhoon - item # 2181

A concentrated high quality liquid detergent, formulated to be safe on all metals including soft aluminum. TYPHOON is specifically formulated for use in open washers with agitators, such Metcraft's Power Soak sink.

5 gal pl	50 lbs	1.31
----------	--------	------

INTRODUCING OUR NEW LINE OF SUPER CONCENTRATES

SUPER CHAMP

Super Concentrated formula enables a 10 liter jug to wash the same number of cycle as a 5 gallon pail.

Smaller & lighter containers reduce delivery cost by increasing the number of containers that can be transported per load.

Reduced container weight minimizes risk of costly employee injuries.

10 liter jugs require less storage space than 5 gallon pails. Jugs are easily stacked to maximize storage space.

SUPER DRY

Super concentrated formula enables a 10 liter jug to wash more cycles than a 5 gallon pail.

SANI CLEAN II

An E.P.A. registered, 5.25% chlorine sanitizer for low temp dishwashing in a 10 liter jug.

Three product storage rack mounted to dishmachine legs keeps product off-the-floor making surrounding areas fully accessible and minimizing potential spills.

SOLID PRESOAKS

Solid Brilliant Plus - item # 2411

A moderately alkaline solid designed for use as a pre-soak for stainless steel and silver table service. Will remove tarnish and stains from silver plate and stainless steel flatware. An excellent pre-soak, it quickly penetrates and saturates soils for their removal.

Pack Size	Weight	Cube
2/8# cs	17 lbs	.3

Machine Warewashing - CONTINUED

POWDER PRESOAKS

Brilliant Enzyme - item # 1160

An enzyme activated, mildly alkaline powder, designed for use as a pre-soak for all types of flatware. When properly used, it also removes tarnish and stains from silver plate and stainless steel.

Stainless Steel Presoak - item # 1410

A powerful, highly concentrated, powdered stainless steel and silver pre-soak. Formulated with a superb blend of alkalies, water conditioners and wetting agents for excellent wetting action and soil penetration.

Destainer - item # 1365

A stable oxygen bleaching powder, formulated to remove food stains from plastic and fine china dinnerware. When used as a pre-soak, DESTAINER loosens food soil and dissolves tough coffee, tea and fruit stains.

Pack Size	Weight	Cube

Specialized Line of Products Formulated for The Brewing Industry

Valuebrew

Value Products craft brewing line is specifically designed to provide our customers with high end products, detailed cleaning procedures and excellent service.

Our products contain a wide range of water conditioning agents & surfactants of the highest quality accompanied with resources to help you succeed.

Alkaline Detergents

C-100 code 4011

This highly concentrated liquid alkaline detergent is specifically formulated to be used in clean in place CIP/COP circulation systems. This product is capable of removing even the most difficult fats, carbohydrates, sugars and other F.O.G.'s in brewery and food processing operations.

5g Pail 55g Drum

C-401c code 4018

A highly chlorinated caustic liquid detergent used to clean hard surfaces, equipment and floors in breweries. Can be used to remove carbohydrates, sugars and other heavy soils.

5g Pail 55g Drum

Powder Brew Clean (PBC) code 4296

PBC is an alkaline CIP and general purpose cleaner that is an effective alternative to caustic soda. Specifically designed to remove any organic soil, proteins and stains commonly found in breweries.

50# Pail 450# Drum

Acid Detergents

A-200 code 4002

A-200 is a concentrated high foaming acidic cleaner and stainless steel brightener. Excellent for removing beer stone, protein material resins and yeasts, and mineral deposits from stainless steel surfaces.

5g Pail 55g Drum

A-300 code 4009

A-300 is a highly concentrated low foaming nitric and phosphoric acid blend. Used for passivation and the removal of milk stones, mineral deposits, alkaline residues, protein scale and hard water scale.

5g Pail 55g Drum

Peroxide Plus code 4231

An industrial strength concentrated multi-surface cleaner containing Hydrogen Peroxide. For daily use on floors, walls, equipment, tables and other hard surfaces.

5g Pail 55g Drum

Sanitizers

Quat Sanitizer II code 2420

Quat Sanitizer II is an E.P.A. registered, no rinse quaternary ammonium based sanitizer. Quat Sanitizer II is formulated to disinfect and deodorize pre-cleaned surfaces, including food contact surfaces. This product is ideal for food and beverage processing applications.

5g Pail 55g Drum

SaniDate 5.0 code 4053

A peroxyacetic acid and hydrogen peroxide based food grade sanitizer/disinfectant used in the food and beverage processing industries. Can be used in CIP systems, hard surfaces, parts and equipment.

5g Pail 55g Drum

Other Products

Iodophor Rinse code 2251

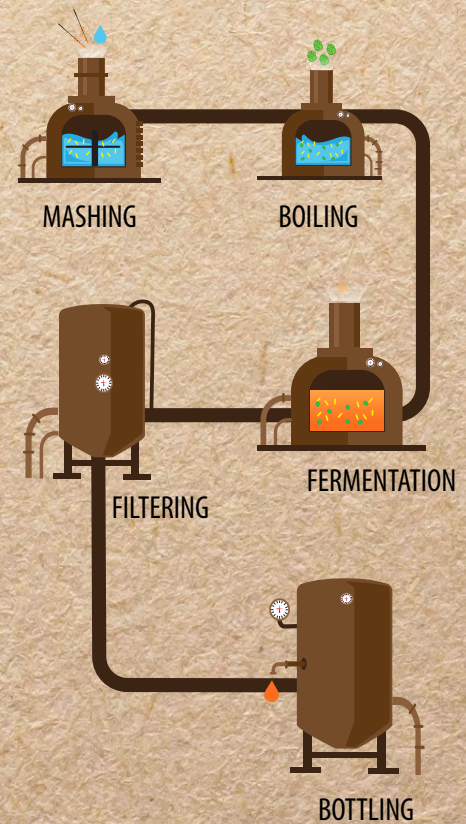

This high quality rinse aid is highly effective for use in the cold water rinse cycle of glass washing machines.

4x1g Cs.

Line Cleaner Plus (LCP) code 4019

Keep the beer flowing & tasting great with Line Cleaner Plus (LCP). Perfect for automated CIP systems. LCP removes all soil that causes your beer to go bad.

4x1g Cs. 5g Pail

VALUEpro DISPENSING SYSTEM

Our newest chemical management system is easy to install, use and maintain. Each product is color coded and numbered for simplified use and training. Super concentrates allow for smaller packages which reduce inventory space and packaging waste. Now available in Kitchen and House-keeping systems.

- SUPER CONCENTRATED PRODUCTS deliver more gallons of RTU products than conventional packaging.
- BOTTLE INSERTS. Pre-installed bottle inserts (locks) eliminates spills and over-use.
- EASY TO USE. Requires virtually no training.
- SIMPLE INSTALLATION. Use right out of the box. Proper dilution rate is controlled by blend center.
- EASY TO UNDERSTAND. Product labels are printed in English & Spanish.
- COLOR AND NUMBER COORDINATED DESIGN makes operation, setup and use a snap.
